

EE 329: Fourier Series

Brief Project Overview

February 2, 2018

Order of Approximation $N = 1$

February 2, 2018

Subtract the two signals

Residual power = 0.1964
(Watts)

February 2, 2018

Order of Approximation $N = 3$

February 2, 2018

Subtract the two signals

Residual power = 0.1046

February 2, 2018

Order of Approximation $N = 5$

February 2, 2018

Subtract the two signals

Residual power = 0.0723

February 2, 2018

Order of Approximation $N = 15$

February 2, 2018

Subtract the two signals

Residual power = 0.031 4

February 2, 2018

Order of Approximation $N = 101$

February 2, 2018

Subtract the two signals

Residual power = 0.0161

February 2, 2018
