

[Lesson title]

- [A short description of the investigation]
- [Teacher or school]
- [Course / grade level] [Date]

Our investigation

- Essential question
- [What will students investigate?]
- Learning goals
- [What will students be able to explain or do?]

[Key idea]

- [Explain the main idea.]
- [Define a new term or connect it to prior learning.]
- [Insert a figure or diagram]
- [Figure caption and source credit]

[Activity title]

- [Describe the setup.]
- [Describe the measurement and units.]
- [Explain how to record the result.]
- [Add relevant safety or supervision instructions.]

[Observation or result]

- [Insert a graph, table, or image]
- [Describe the evidence. Include units, a caption, and source credits.]

What did we learn?

- [What pattern do the results show?]
- [What evidence supports your explanation?]
- [What would you investigate next?]
