

EE 329: Fourier Series

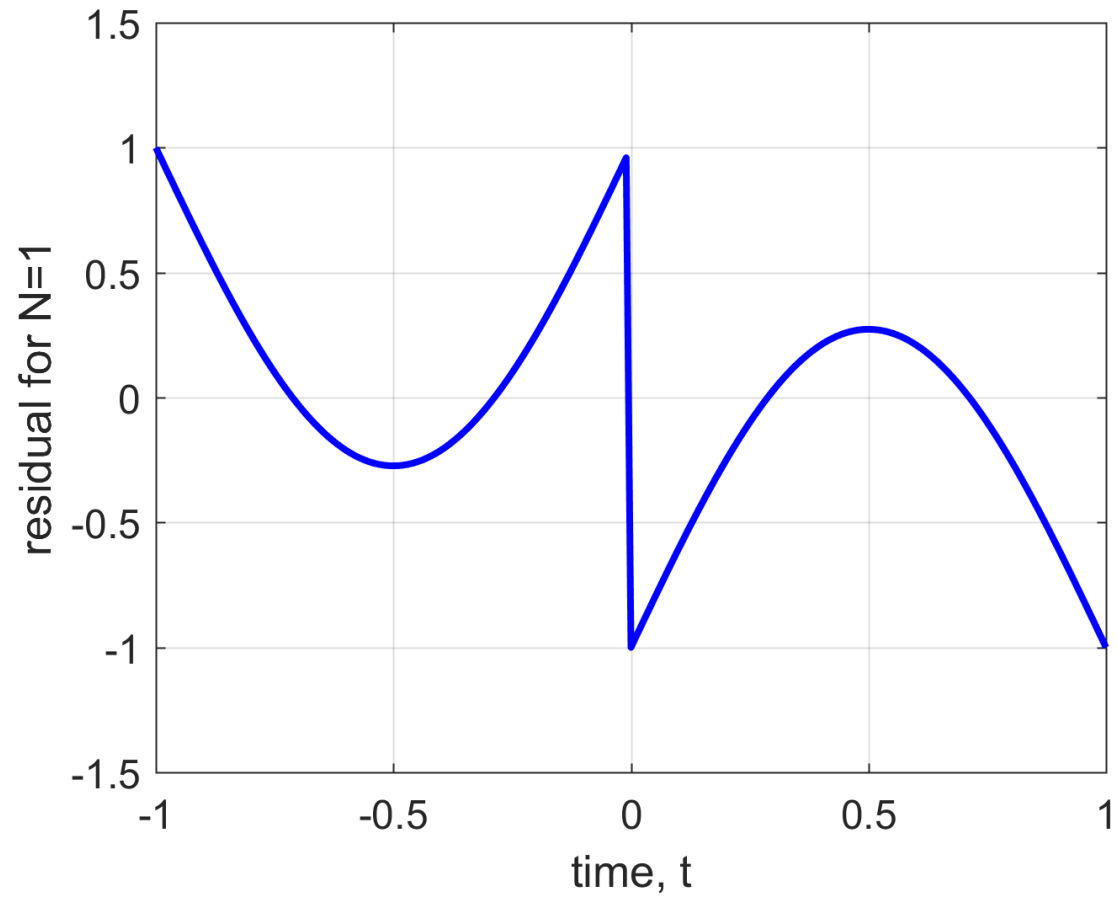

Brief Project Overview

February 2, 2018

Order of Approximation $N = 1$

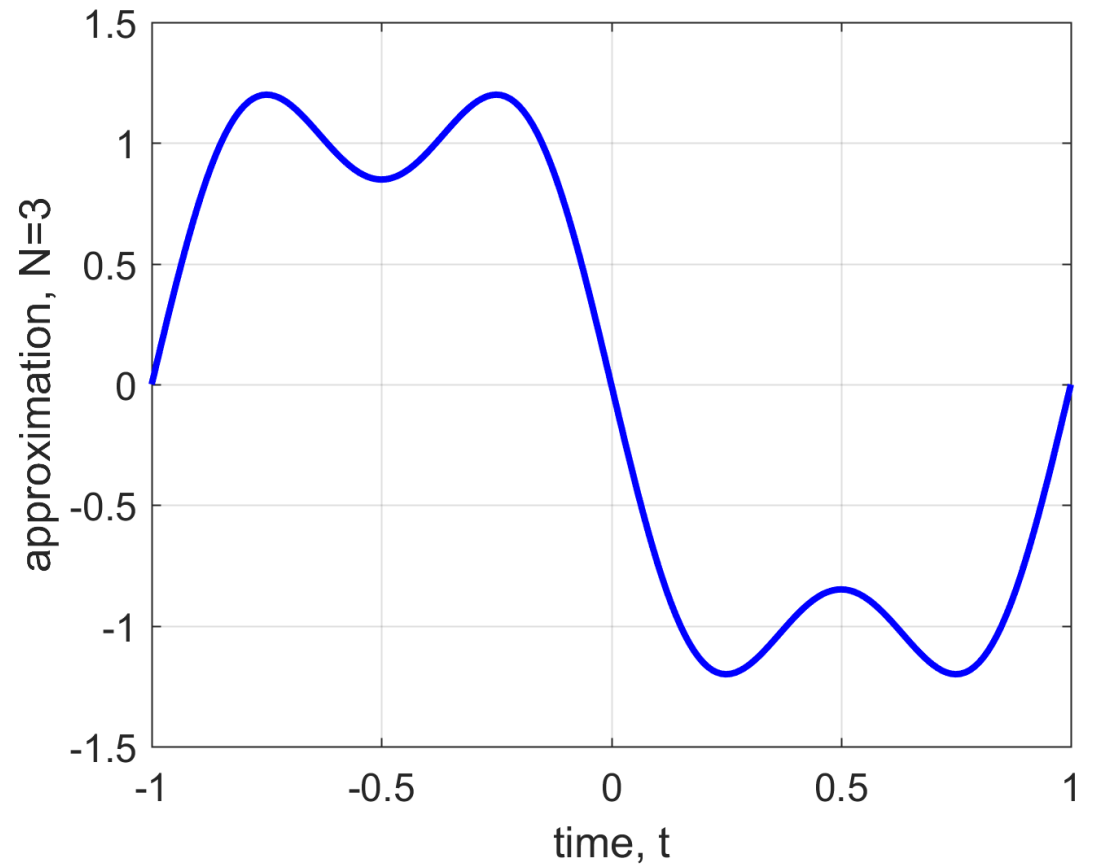

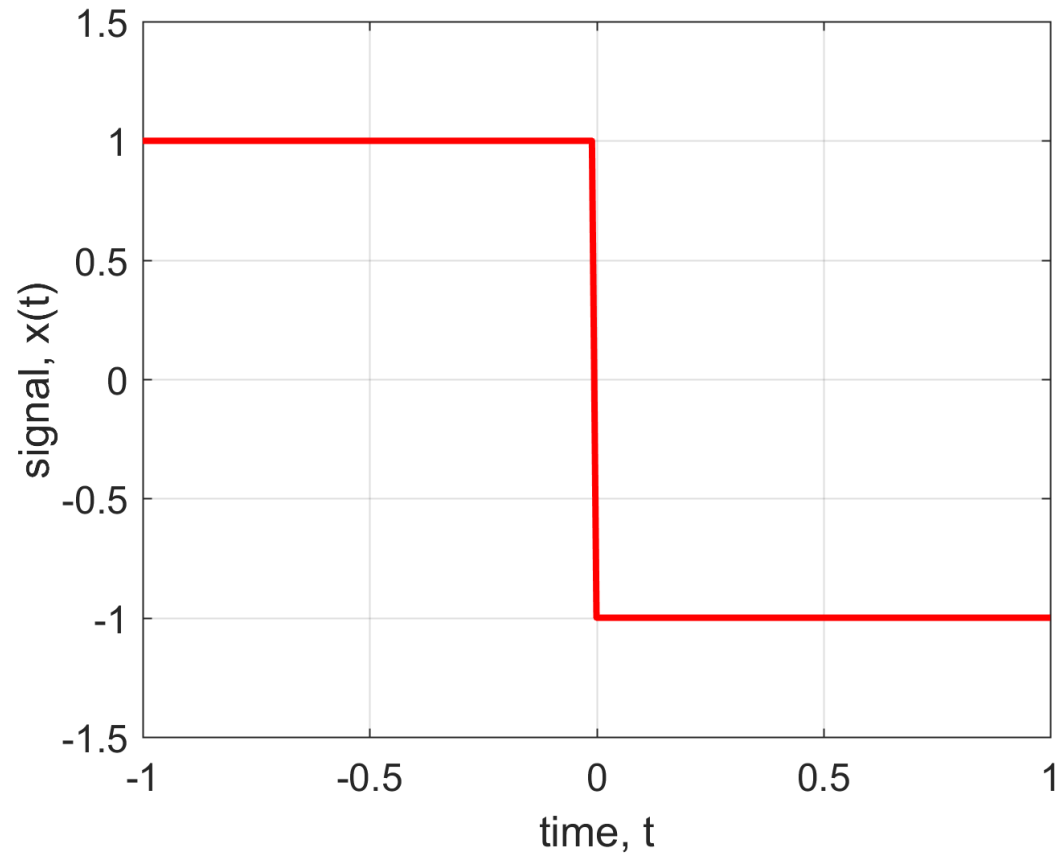

Subtract the two signals

Residual power = 0.1964
(Watts)

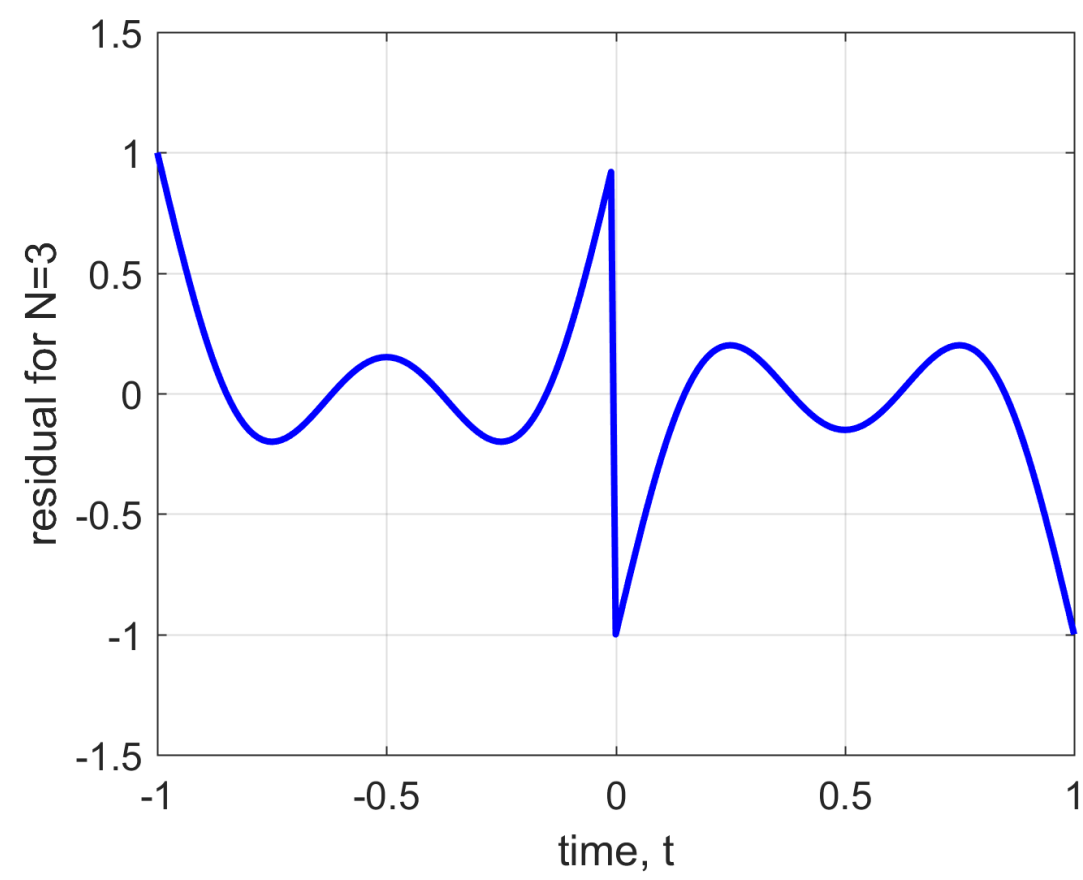

February 2, 2018

Order of Approximation $N = 3$

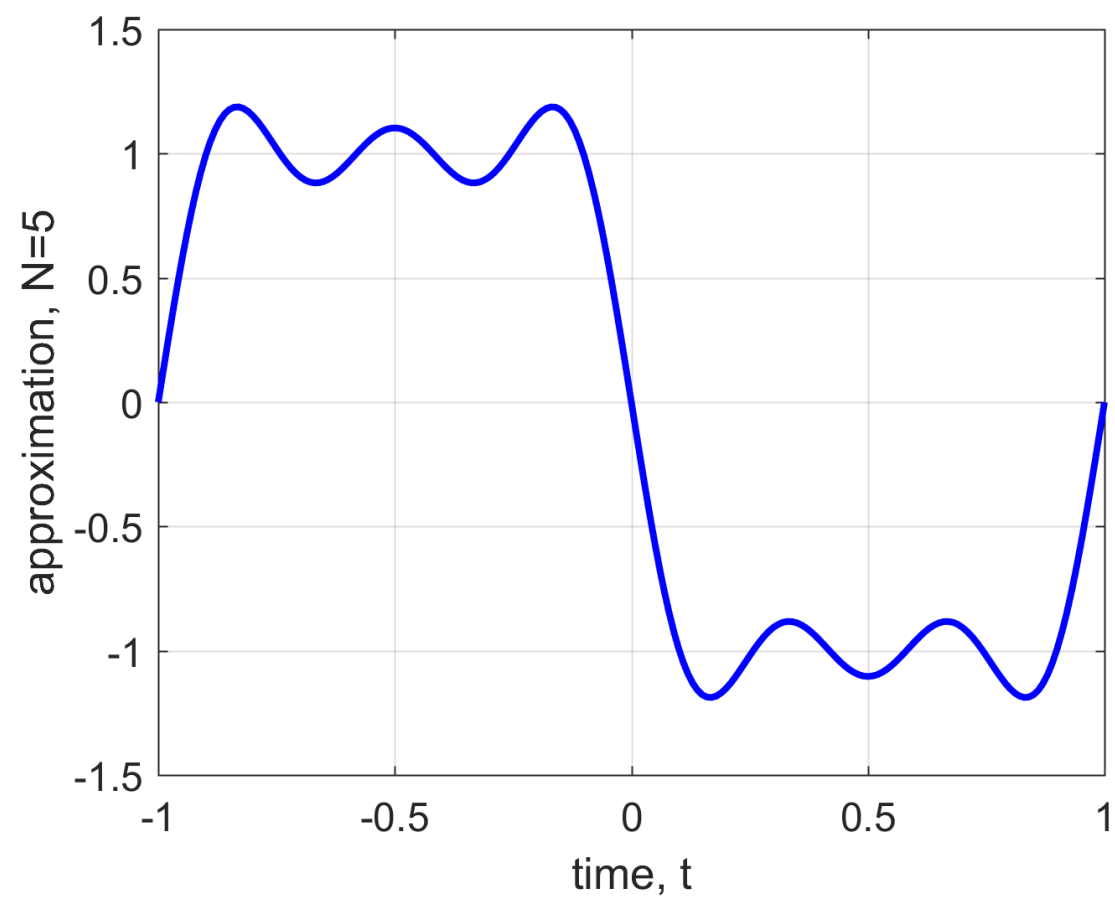

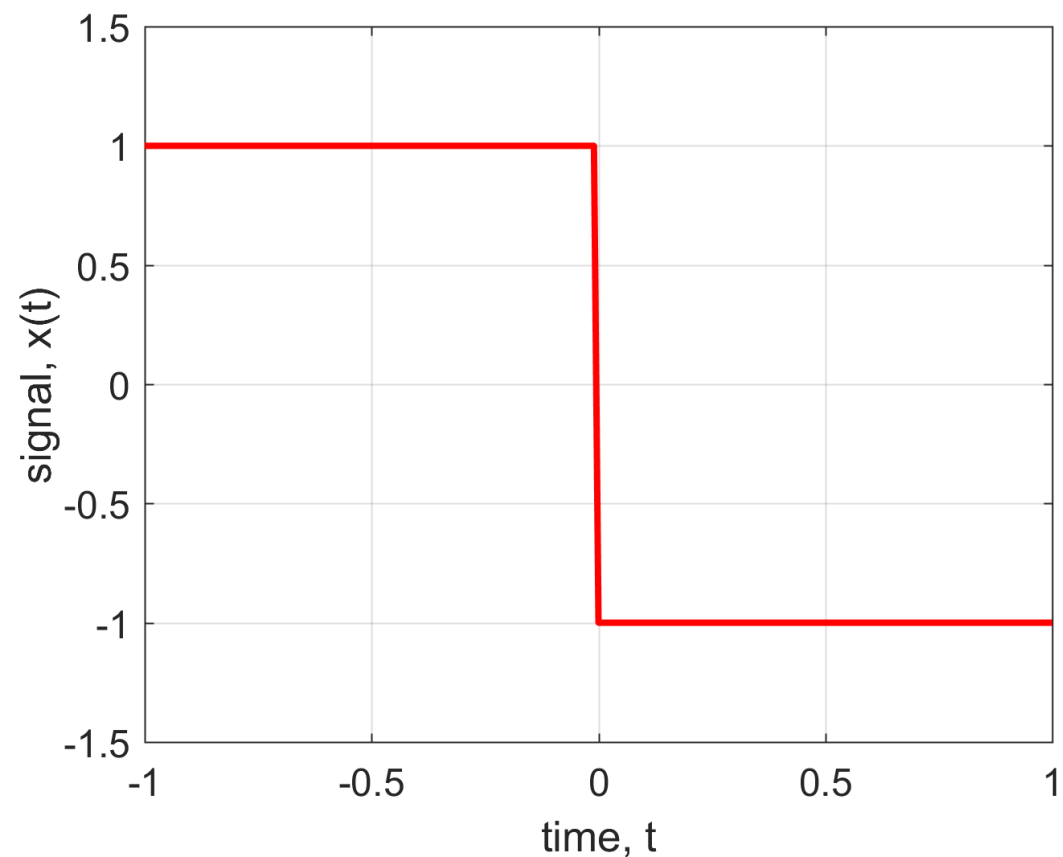

February 2, 2018

Subtract the two signals

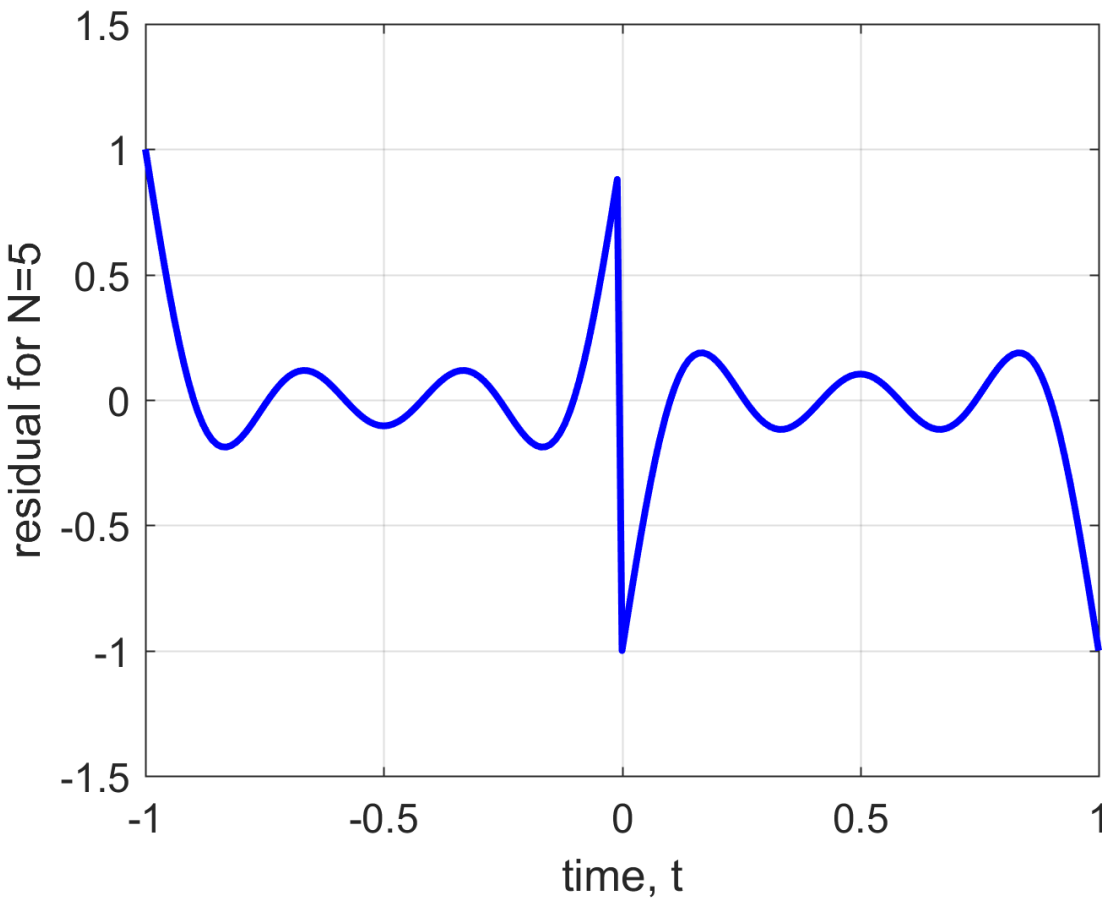

Residual power = 0.1046

Order of Approximation $N = 5$

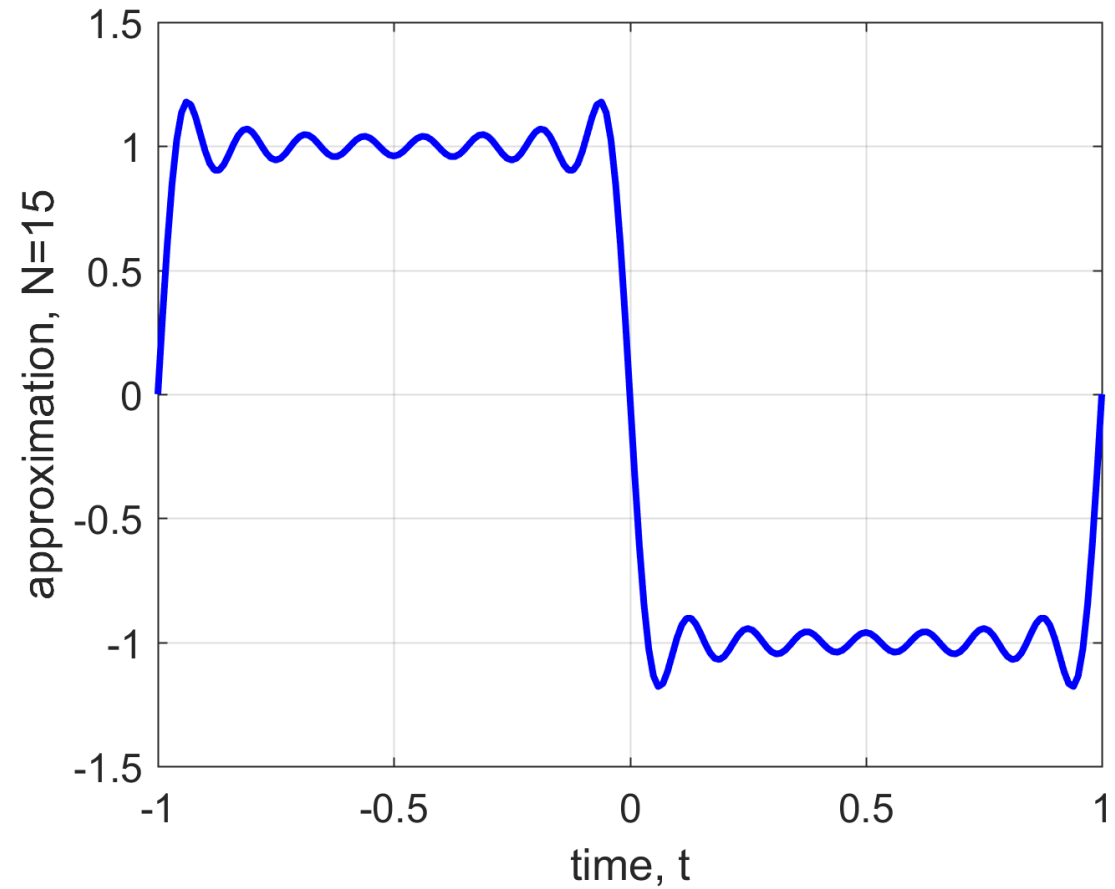

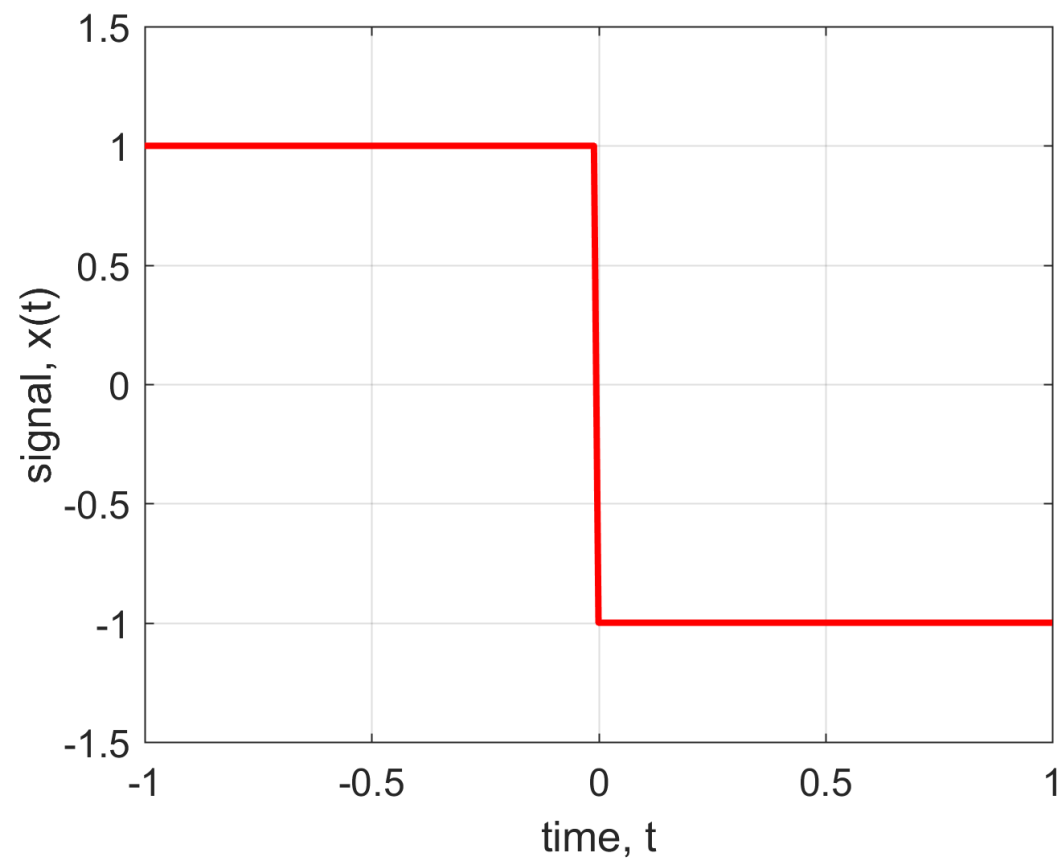

February 2, 2018

Subtract the two signals

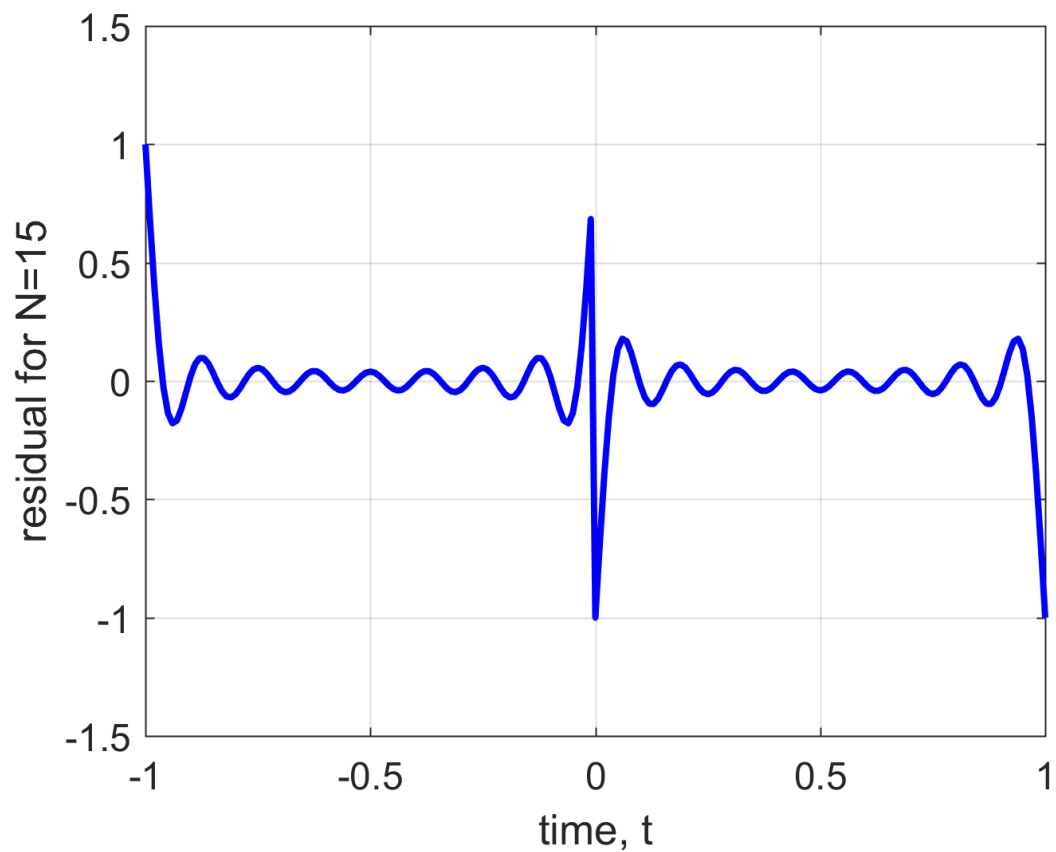

Residual power = 0.0723

Order of Approximation $N = 15$

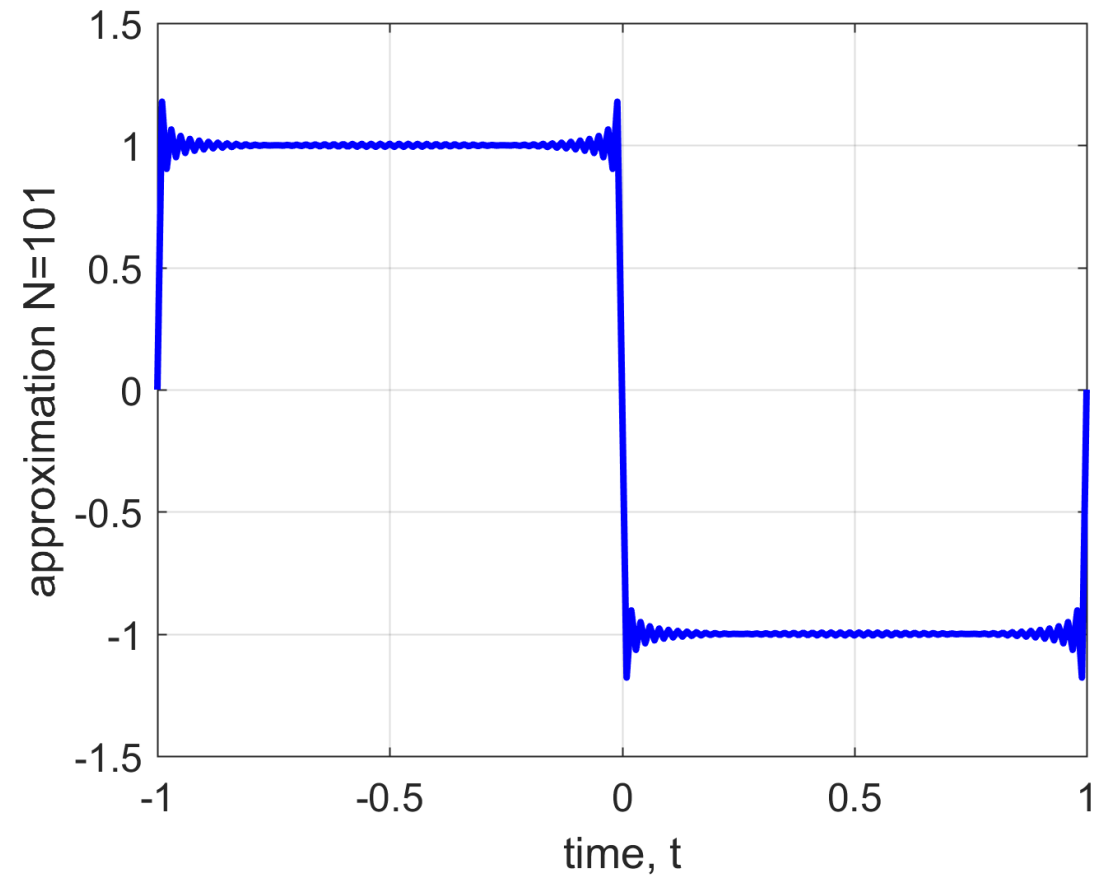

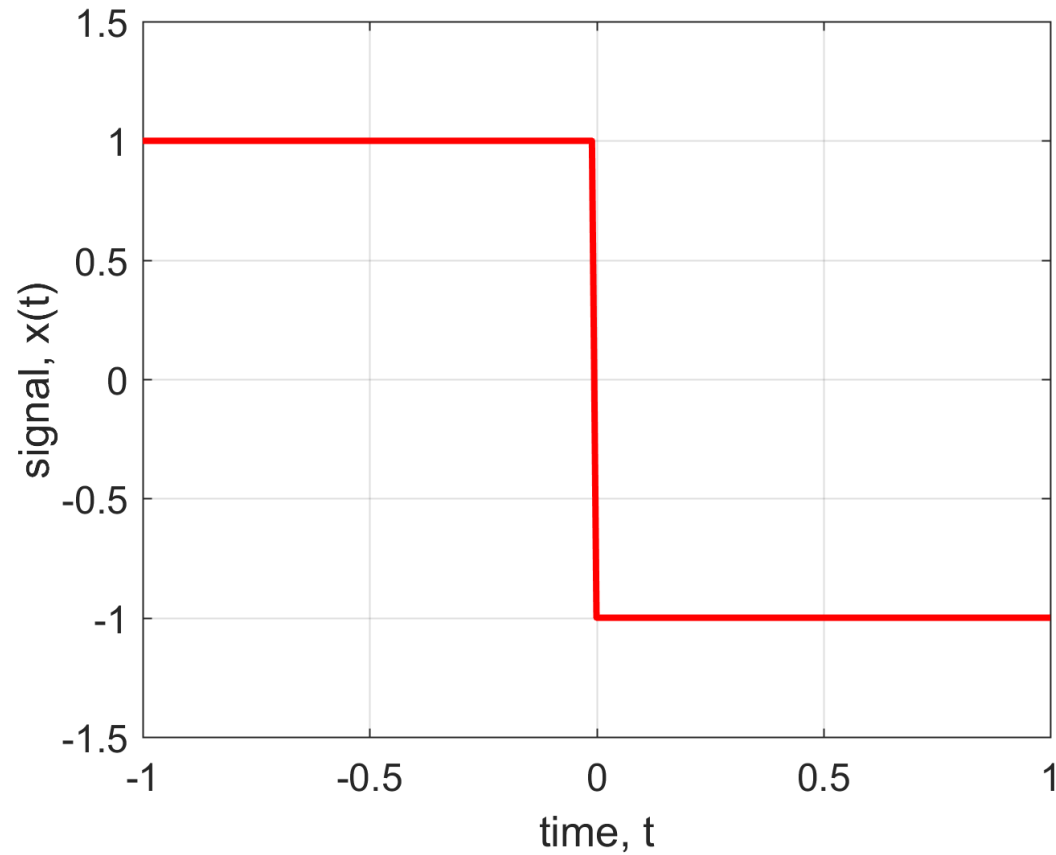

February 2, 2018

Subtract the two signals

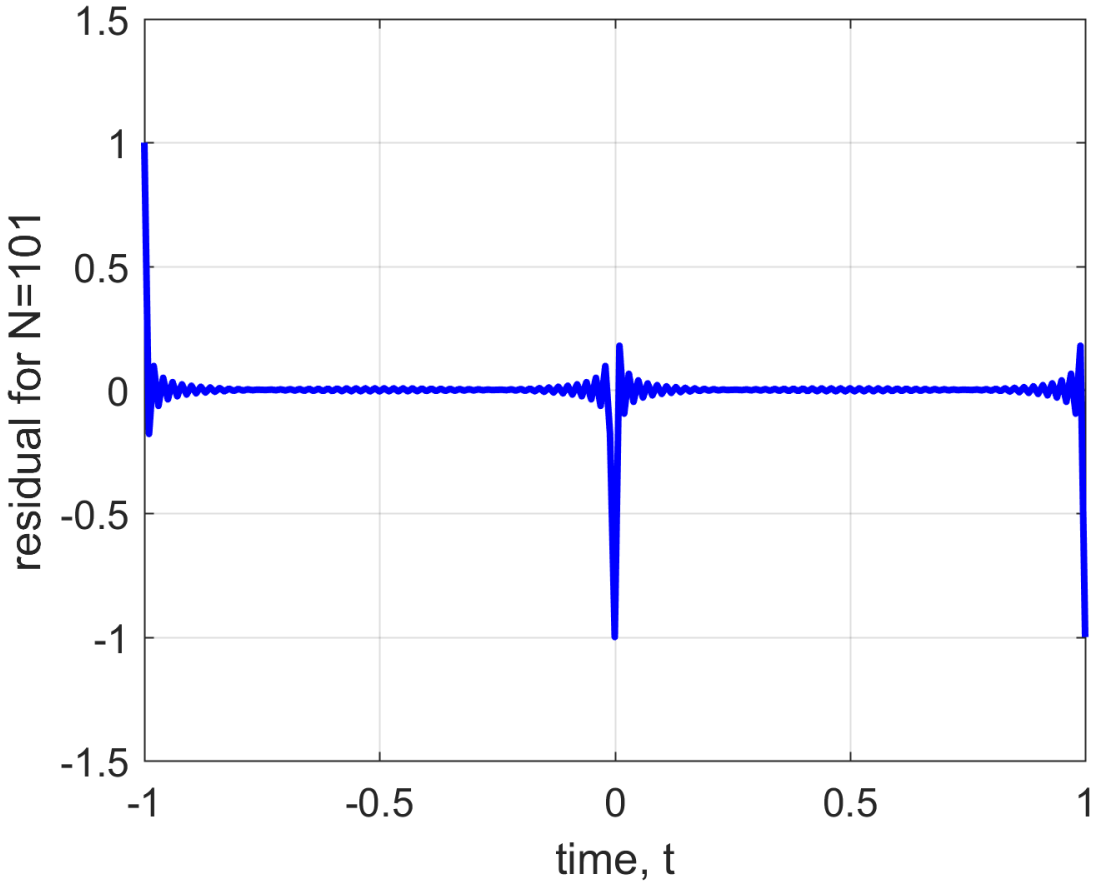

Residual power = 0.031 4

Order of Approximation $N = 101$

February 2, 2018

Subtract the two signals

Residual power = 0.0161
